

# MOUSSA WILL NOT BE FIRED !

10<sup>th</sup> February 2017

An international week of action against the New Look brand is organized to protest, among others, against the treatment towards Moussa Koita. In fact, as a salesperson at the New Look shop on Rue Saint-Antoine in Paris, he has been suspended since December 2016 and is under a procedure of dismissal.

He stands accused of nothing more or less than... harassment of the entire management team of the Creteil shop! Behind this ridiculous accusation is the unconditional support of the HR person, for managers, whose agitations Moussa, in his role as staff representative, persistently denounced. Those events are fully documented, with several official police complaints, demands to investigate made to the employees representatives, and a court case against the company by two employees, who have been fired since (their hearing in court will take place on 24 March).

This manoeuvre on the part of New Look's management aims at nothing other than to dissuade our union from any further action, as our union representatives, since their election in 2015, have not stopped to act against deteriorating working conditions and pressures faced by many workers, succeeding to make their voices heard without making concessions in all the bodies we have a seat on.

We require the end of Moussa's dismissal procedure : **an injury to one is an injury to all !** You can also help by delaying your purchases and signing the petition :
